WORK EXPERIENCES

Company: Almaviva Solutions S/A / Government of the state of São Paulo
Function: Mid-Level Wordpress/PHP Developer
                        Jun 2022 to Oct 2025

Duties: I developed custom WordPress themes from scratch and worked extensively with Elementor. I created multiple plugins with full CRUD functionality and built tools such as an event calendar, integrating data directly into the WordPress admin panel. I also implemented REST and SOAP API integrations to reduce costs. Additionally, I built an API-based form that redirected customer service requests, cutting operational costs by 90%. I enhanced site security by removing unnecessary external plugins and customizing themes, deleted unused plugin tables to improve page speed, optimized SEO and accessibility, and improved mobile responsiveness.
Projects: Compras - Procon - SGGD - Prodesp - Rota - Desenvolvimento Econômico

Company: RGR Information Tecnology LTDA / Tokyo Marine Insurance Company
Function: Junior Wordpress/PHP Developer
                        Oct 2020 to Jun 2022
Duties: I maintained the Tokio Marine institutional website, and after joining the company, I significantly increased monthly traffic from around 1 million to nearly 5 million visits by improving SEO and optimizing site performance. I enhanced mobile responsiveness, strengthened security by removing 25 external plugins and customizing themes, and cleaned unused plugin tables to boost page speed and overall performance.
Projects: Tokio Marine - Blog Tokio Marine - Intranet

Company: Infobrujac Information Tecnology LTDA
